Greetings-As a satellite radio subscriber, I pay for a service and that service includes local traffic and weather reports. Satellite radio offers me the quality and variety I need and want. As a paid service, I want it to provide me with as much as possible. I should not have to switch over to another radio station and wait around for the weather/traffic report - that is what I pay not to have to do!

Please reject NAB's petition 04-160.

Thank you for your time and consideration.

Respectfully,
Maureen Walsh
